

Model R800-16PS Power Supply Panel

FEATURES

- * Rugged Construction
- * Use with R800-16/45 Rack Assembly
- * 19" Rack Mountable
- * Light weight
- * Corrosion Resistant
- * Meets CALTRANS specifications

Description

The GDI R800-16PS Power Supply panel is utilized with the R800-16/45 Rack Assembly and R800-16PC Power Control Panel to supply ± 12 VDC through the GDI R800-16PC Power Control Panel to the GDI R800-16/45 Rack Assembly.

The GDI R800-16PS Power Supply panel supports up to eight GDI R800-16/45 Rack Assemblies and in conjunction with the GDI R800-16PC Power Control panel provides the ability to utilize redundant GDI R800-16PS power supplies.

The + and - 12VDC outputs are monitored by separate LED's providing a visual indication of the power being provided to the rack assembly.

Specifications

Mechanical Specifications

Construction: Aluminum

Size: 19" Rack Mount - 12.25" high

Mounting: 4 #10 screws

Operating Temperature: -40°C to +80°C

Humidity: 100%

Switches

On/Off for + and - 12 VDC

Specifications subject to change without notice
